

### Core Group Resources Quality Policy

Core Group Resources policy is to provide customized, safe, cost-effective, quality, and efficient support services to all industries. These services will be achieved by conducting operations within a planned, coordinated, and organized framework that is facilitated by our Quality Management System. Quality objectives are defined to promote the Company's strategic direction and monitored for effectiveness.

The Quality Management System is implemented and maintained with the goal of achieving optimum utilization of the resources and experience of Core Group Resources staff to satisfy customer needs and expectations while continually improving our business processes and services.

Core Group Resources is committed to providing recruitment and placement services at no charge to all qualified candidates.
